MultiPress?

Relationship Management

MultiPress integrates a powerful CRM module. All actions/follow-up of your customers in one single application.

- Contacts
- Quotation follow-up
- Price agreements
- Sales information
- Creditsafe integration

Pre-calculation

MultiPress includes various dynamic price calculation methods. Get your quotes done with a minimal amount of input and a maximal amount of flexibility.
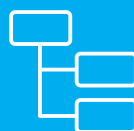

- Large format printing
- Offset printing
- Digital printing
- Web printing
- Foil stamping
- Screen printing
- Finishing

Production optimiser

With the combination module of MultiPress, multiple orders can be combined on one printing sheet. Optimisation saves time and money!

- Automatic ganging (Workflower)
- RIP connectivity (JDF)
- Automatic job sheet production
- Barcode reader for time tracking

Workflow

The production workflow is controlled automatically. The calculation is transformed into a production order and sent to production.
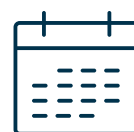

- Preflighting
- Impose
- JDF/JMF
- Calculation wizard
- Multiple File upload

Order Management

Thanks to MultiPress, orders can be retrieved in a variety of ways. All this can be consulted in real time and on any mobile device.

- Production status
- Delivery note
- Labels
- Purchase management
- Warehouse and stock management

Planning

Create and manage your interactive planning in one click. Create your flow and have a real-time status of all your jobs.

- Interactive planning (drag & drop)
- Daily schedule for internal staff and subcontractors
- Custom production steps
- Capacity overview
- Expedition planning

Registration & post-calculation

Efficient use of production hours is fundamental. Therefore MultiPress includes time registration capabilities for an accurate post-production cost.

- Time registration through web interface
- Machine and material registration
- Production status of employees
- Subcontractor follow-up

Invoicing

Creating invoices with the correct amount defined by the job information, exported with one click to your accountancy.

- Purchasing invoices
- Sales invoices
- Payment follow-up
- Link to accounting

Reporting & Management

Quick and simple analysis of turnover.
Clear overview of orders, evolution of turnover, margins, etc.

- Dashboard & ONP
- Report generator
- Turnover and results
- Commission
- Organisational compass

E-business

Get all the tools for an efficient interaction with your customers. Give them the option to be part of the process.

- Web2Print
- Webshop
- Online proofing/validation
- Multiple File Upload
- Real time production status

Added values

MultiPress generates added value to your company. MultiPress manages the complete process from Contact to Invoice

- Made for printing companies
- Integrates with your production
- Calculates your profitability
- Increases the interaction with your customers
- Provides a global overview
